ONE SYSTEM, MANY PURPOSES

- Divide playgrounds
- Clean hands
- Improve waste disposal
- Advise pupils and staff
- Add colour & soften appearance
- Control traffic flow & movement
- Use outside or inside
- Store away easily
- Restrict entry
- Re-use for future events

MODULAR & RE-USEABLE DESIGN

- ✔ A freestanding, rapid to deploy PPE and safety station, built on the Skipper post & base system
- ✔ Can hold up to 4 hand sanitiser brackets
- ✔ Up to 2 recycle bins
- ✔ Up to 2 safety dispensers—perfect for storing face masks and other PPE equipment
- ✔ A4 sign holder for your messages
- ✔ Highly durable, easy-to-clean materials
- ✔ Available in a choice of colours; orange, red, green, blue, silver, and yellow

A post & base system for the future

The Skipper post and base system is the perfect complement to the Skipper unit. Its sleek, professional design looks sublime in any environment, both indoors and outdoors.

Sold as a two-part system for improved transport and storage, the base can simply be filled with water or sand for improved strength and stability, then the post is twist-locked into position.

The Skipper unit or post & base cap attach to the top of the post with a secure, snap fit.

The modular waste management range can also be attached to the post via the post & base collar, making it one of the most versatile products in the Skipper range.
