## **Button Fixings**

## Fitting Instructions

- Take your paper drilling template and tape it into position on your wall, making sure it's level and that you're not drilling into mortar.
- Using a 6mm drill bit, drill through the two fixing holes on the paper into the wall.
- Insert your wall plugs into both holes and screw the green button fixings into position with the flat face against the wall.

Next take you sign and line up the fixings on the back with the fixings on the wall and push down firmly. You should here a click when in position.

That's it, you're all finished... why not have a nice cuppa tea to celebrate a job well done.
